Principal's Message

Wow! It's hard to believe that it's already October! Over the past month we have been focusing on building a sense of belonging with our students and doing our best to make them feel welcome. One of the big events over the past month was Truth and Reconciliation week where we had multiple events planned in classes, as well as a whole school community walk to support Archie Chantymen's Walk For Arch—a healing walk for residential school survivors of St. Joseph's mission. Our school raised over \$430 for this cause!

Our focus for the month of October is attendance and we have been meeting with students who have poor attendance and their families to set up success plans for them. If you would like to meet regarding your child's attendance, please contact me and we will get a meeting scheduled.

October is also important month for Grade 12's who are planning on attending university or college next year. Many institutions have applications open for early acceptance and we are available to help with this process. Every Friday during X-Block, Ms. Pelchat is in Room 207 to support students with their college or university applications. We will also be having a parent meeting at 7:00 pm on Thursday, October 26th in the Correliou Theatre. This meeting is open to all parents regardless of which grade your child is in. We will be sharing important information regarding Graduation and planning for Graduation at this time.

We will be having an Indigenous family gathering on Wednesday, October 25th beginning at 4:00. This event will include dinner.

NEWS & EVENTS

ATHLETICS

Correliu Athletics is in full swing already this year. Mr. Trueman and Mrs. Christieson have already taken the Junior and Senior Cross country teams to two races and the Correliu contingent has placed well.

Mr. Anderson is coaching the Junior girls volleyball team and they have had a good showing this last week playing in Prince George.

Mr. Kitamura is coaching our Senior girls Volleyball team along with help from previous grads Emerie Watson and Kyle Riley. They have attended two tournaments already and are pushing themselves to be competitive at the senior level.

Mr. Forsythe has picked up the reigns of the Senior boys Volleyball team and is developing their skills and competitive level. With one tournament under their belt they will be practicing hard for the big senior tournament at Duchess later this month.

INTRAMURALS

Correliu Intramural Championships started early this year with Ultimate (frisbee). The CSS Staff were able to squeak out a win against various members of last years Ultimate school team. There was a very controversial call early in the game that gave a score to the staff team, however, the game was tied up and needed to go to Overtime. In sudden death overtime, the Staff team took advantage of an over commit by the students and scored the game win! Many of the students un-happy with the outcome will be looking for revenge starting October 11th when Intramural Volleyball games start up!

STAY HOME WHEN SICK

If your student is feeling unwell, please ensure they stay home. Please see the following pages from the BC Centre for Disease Control (BCCDC) for what to do if you have COVID-19 symptoms. As per the BCCDC website, as of November 17, 2022, people who test positive for COVID-19 should stay home until their fever has resolved and they feel well enough to participate in daily activities. Thank-you for helping us keep our school healthy!

Scan the QR code for more information on COVID-19.

How to get your PCR test results

In Person: Contact a primary care provider, walk-in clinic, or primary care centre. If you do not have a personal health number (PHN), get your results in person.

Treatment for COVID-19

There are treatments available for people who tested positive for COVID-19 and who are at higher risk of serious illness and needing hospitalization.

If you test positive, check if you may benefit from treatment. Visit gov.bc.ca/covidtreatments or call 1-888-268-4319

Urgent care

Go to an urgent care clinic or emergency department if you:

- have difficulty breathing
- feel very sick
- have chest pain
- feel confused
- can't drink anything

If symptoms worsen or don't improve, call **8-1-1** or visit a health care provider or urgent care clinic.

Stay home if sick

Stay home and away from others until:

- your fever is gone (without the use of medicines that reduce fever like Tylenol), AND
- you feel well enough to return to daily activities.

Avoid close contact with people at higher risk of severe illness or complications from COVID-19.

If you cannot stay away from others while you have symptoms, take these prevention measures:

- wear a mask indoors
- cover your coughs or sneezes with your elbow
- clean your hands often

If you don't have symptoms, you do not need to stay home or avoid others, regardless of test results.

Managing symptoms at home

Most people can safely manage their symptoms at home.

- Take rest
- Drink lots of water and fluids
- Use a humidifier or hot shower to ease cough or sore throat
- For fever, take medicine like acetaminophen (Tylenol) or ibuprofen (Advil)

Stay home

- Rest and allow yourself to recover.
- Whenever possible, have family, friends, or a delivery service bring food, medication and other supplies to you.
- Avoid close contact with household members who may be at higher risk of severe illness, such as very young children, elderly, and immunocompromised, if possible.
- You can still do essential chores such as checking your mail or walking your dog.

If you need to go out

- It is best to walk, ride a bike, or drive yourself.
- If you travel in a car with anyone (in a taxi or a ride share, or even with someone from your household):
 - Everyone should wear a mask
 - Roll down all the windows
 - Everyone should clean their hands before and after the ride
- If you must take public transit:
 - Wear a mask
 - Clean your hands before and after the ride

If you live with others

- Let everyone at home know you are sick/not feeling well.
- If possible, stay in your own room and use a different bathroom than others.
- If you must be in a room with others:
 - Wear a mask or respirator that covers the nose, mouth and chin to reduce spread.
 - Open windows to increase airflow.
- If eating around others, ensure good respiratory etiquette (cough/sneeze in your sleeve) and avoid close face-to-face contact.
- Everyone should wash hands often with soap and water, or use hand sanitizer.
- If you share a bathroom:
 - Put down the toilet lid before you flush.
 - Turn on the fan or open the window.
 - Clean handles and faucets after each use.
 - Avoid sharing personal items like toothbrushes and towels.
- Clean and disinfect high-touch surfaces such as door handles, light switches, faucets, phones, computers and remote controls.

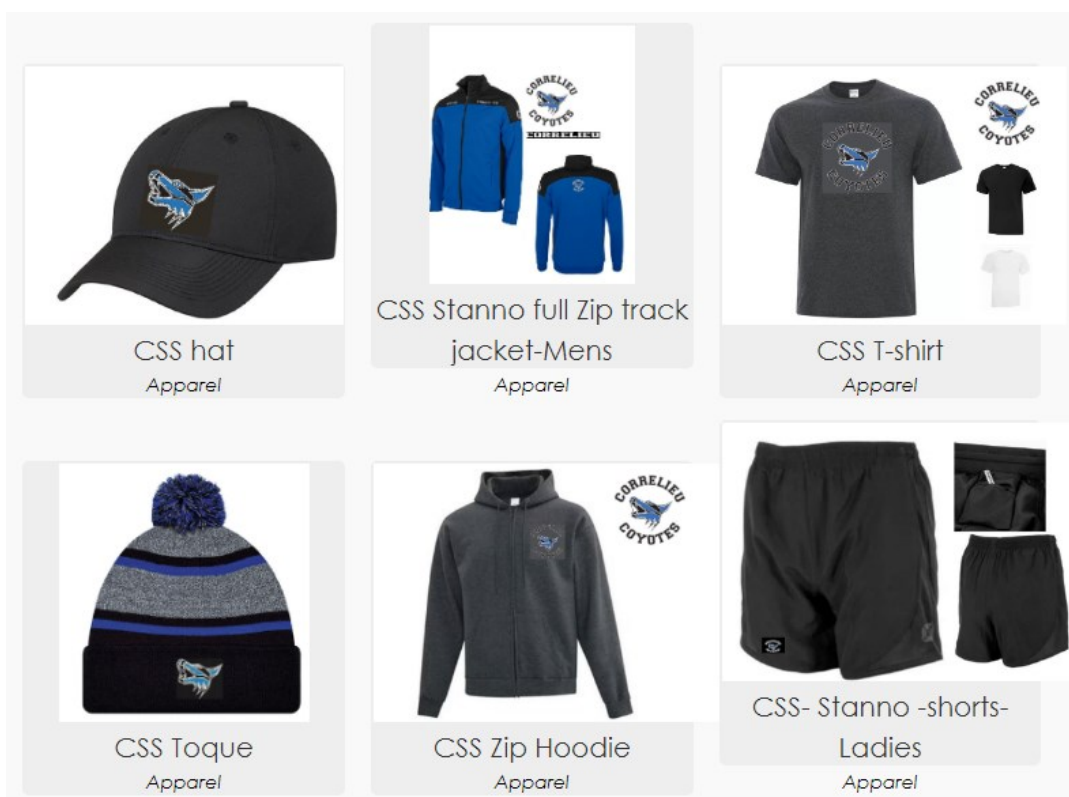

Highlights from Ultimate Intramurals!
