Making Course Selections

Once you are in the course selection area it is easy to select your courses, but **very important** to make sure you select the correct courses you need for your chosen educational path.

School counselors will provide guidance on what courses you need for graduation. You also want to consider what courses may be valuable and/or required for your path after graduation (Post-Secondary School, Trades Programs, Employment, etc).

To assist students in their course choices Correlieu has its Course Selection Guide available on the school website here:

<https://css.sd28.bc.ca/course-selection>

Once you have determined the courses you want to take. You are ready to enter your course choices.

To select a course:

- 3- Look at the Subject Area your Course falls under and then click on the select button
